FDOT Completes ITS Project At Various Locations throughout Miami-Dade County

MIAMI, Fla. – The Florida Department of Transportation (FDOT) recently completed an Intelligent Transportation Systems (ITS) replacement project. This project replaced and updated ITS devices throughout Miami-Dade County along State Road (SR) 9A/I-95, SR 826, US 441, SR 9 and US 1. The \$7 million project took roughly two years to be completed.

The scope of work included: Replacing ITS cabinets, replacing Dynamic Message Signs (DMS) and installing Closed Circuit Television (CCTV) cameras and poles.

FDOT completed this project with the support of elected officials and the community. Horsepower Electric Inc. was the design-build contractor.

For more information, please call FDOT's Communications Office at (305) 470-5349 or Senior Construction Community Outreach Specialist Sandra Bello at (305) 510-0827 or go to the website at www.southflroads.com.

For real-time traffic and lane closure information, drivers are encouraged to visit www.fl511.com.

Remember, wearing a safety belt is the single most effective way to protect people and reduce fatalities in motor vehicle crashes. Always be safe and remain alert while driving in construction zones.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities
